The Company is an exploration stage company and is in the process of exploring its resource properties and has not yet determined whether these properties contain ore reserves that are economically recoverable.

The accompanying financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern. The appropriateness of using the going concern basis is dependent upon, among other things, future profitable operations, and the ability of the Company to raise additional capital. Specifically, the recovery of the Company's investment in exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to develop its properties and establish future profitable production from the properties, or from the proceeds of their disposition. The Company has working capital in the amount of \$272,693 (December 31, 2023-\$411,070) and has a deficit in the amount of \$20,757,157 (December 31, 2023 - \$20,581,539). The Company has not earned any significant revenues to date and is considered to be in the exploration stage. At March 31, 2024, the Company held \$4,513 in unrestricted cash, \$103,393 in restricted cash. and \$245,298 in restricted short-term investments. The restricted balances are reserved for eligible flow-through expenditures on its exploration and evaluation assets. The unrestricted cash currently on hand is insufficient to fund its current and ongoing general and administrative expenditure obligations. The Company must seek additional non-flow through sources of equity financing. At present, equity financings for junior mineral exploration entities are difficult to secure. The Company has historically been successful at securing operating capital through the equity markets but there is presently no certainty that it will be able to continue to do so. The Company has and will continue to dispose of long-term investments as well as look for opportunities to sell or option non-core exploration assets in order to generate funds for current operations. These significant uncertainties may cast doubt on the Company's ability to continue as a going concern. The outcome of these matters cannot be predicted at this time.

These financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption deemed to be inappropriate. These adjustments could be material.

2. SIGNIFICANT ACCOUNTING POLICIES

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB ("International Accounting Standards Board") applicable to the preparation of interim financial statements, including International Accounting Standard ("IAS") 34 - Interim Financial Reporting. The accounting policies followed in these condensed interim financial statements are the same as those applied in the Company's audited annual financial statements for the year ended December 31, 2023.

The policies applied in these financial statements are based on IFRS issued and outstanding as of May 16, 2024 the date the Board of Directors approved the statements. Any subsequent changes to IFRS after this date could result in changes to the financial statements for the year ended December 31, 2024.

The condensed interim financial statements do not contain all disclosures required under IFRS and should be read in conjunction with the Company's audited annual financial statements and the notes thereto for the year ended December 31, 2023.

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates, and assumptions that affect the application of policies and reported amounts of assets and liabilities and

disclosures of contingent assets and contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Actual results could differ from those estimates. Significant accounts that require estimates as the basis for determining the stated amounts include exploration and evaluation assets, share-based payments, allocation of financing proceeds, and income taxes. Differences may be material.

7. EXPLORATION AND EVALUATION ASSETS

Mineral property acquisition, exploration and development expenditures are deferred until the properties are placed into production, sold, impaired or abandoned. These deferred costs will be amortized over the estimated useful life of the properties following commencement of production, or written-down if the properties are allowed to lapse, are impaired, or are abandoned. The deferred costs associated with each property for the three month period ended March 31, 2024 and year ended December 31, 2023 is summarized in the tables below:

a. Flint Lake Gold Property

In 2007, the Company acquired an option on the Flint Lake Gold project which is located approximately 40 km east of Kenora, Ontario and consists of 14 claims totaling 160 units. The Company entered into an option agreement with Endurance Gold Corp. whereby under the initial option the Company could earn a 70% interest in the property by making share payments totaling 400,000 shares (completed in 2008) and completing work commitments of \$200,000 on the property (completed). The Company exercised a second option to earn a further 5% in the property by issuing a further 50,000 common shares (completed in 2008) and spent an additional \$250,000 on the property (completed). The Company has now earned a 81.3% interest and a joint venture has been formed on a 81.3% (the Company) and 18.7% (Endurance Gold Corp.) basis.

b. Ogden

The Company has entered into an agreement with Goldcorp Canada Ltd. ("Goldcorp") a wholly owned subsidiary of Newmont Goldcorp Corporation, to jointly explore Goldcorp's mining claims located in Ogden and Deloro Townships, located six kilometres south of Timmins, Ontario. The property consists of 84 patented and unpatented claims totaling approximately 1,184 hectares. The Company has earned a 50% interest in the property under the terms of the agreement.

The Company was the operator of the Property during the earn-in period has continued to operate the project afterwards, provided it continues to hold a 50% or greater interest in the property. During 2012, the Company received notice that Goldcorp did not intend to pursue its back-in right on the Ogden property and as a result, the Company and Goldcorp executed a 50/50 joint venture agreement. If either party becomes diluted to a 10% interest, that interest will be converted into a 2% Net Smelter Return Royalty.

c. Dona Lake

The Dona Lake property consists of 32 patented and leased mining claims totaling approximately 430.1 hectares and covers the past producing Dona Lake Mine.

During the year ended December 31, 2019, the Company entered into an option and joint venture agreement with Goldcorp Canada Ltd. ("Goldcorp"), a wholly owned subsidiary of Newmont Goldcorp Corporation ("Newmont Goldcorp"). The option agreement allowed for the Company to earn 100% of Goldcorp's interest in the Dona Lake property by issuing to Goldcorp a total of 7,000,000 common shares of the Company and funding \$4,000,000 in exploration expenditures over 36 months.

After vesting, Newmont Goldcorp had a one-time option to elect to earn back 51% of the Dona Lake property by spending \$4,000,000 on exploration over the following 24 months. During the year ended December 31, 2022, the Company elected to return the Dona Lake property to Newmont Goldcorp due to economic conditions that would prohibit the Company from assuming the reclamation commitment held by Newmont Goldcorp with the Ontario Ministry of Northern Development and Mines. As a result, the Company wrote off deferred exploration and evaluation expenditures totaling nil during the period ended March 31, 2024 (December 31, 2023 - \$13,804) associated with the Dona Lake property in the current year.

d. Shabaqua

During the year ended December 31, 2023, the Company completed three separate agreements to acquire claim packages located within the Shebandowan Greenstone Belt, approximately 54km west of Thunder Bay, Ontario near Shabaqua Corners. The first purchase agreement was for 5 claim units (33.73 hectares). The Company issued 300,000 common shares for a 100% interest subject to a 2% NSR in favour of the vendor of which 1% may be purchased by the Company at any time for \$1 million.

The second purchase agreement was for 6 claim units. During the year ended December 31, 2023, the Company paid \$7,500 and issued 400,000 common shares for a 100% interest subject to a 2% NSR in favour of the vendor of which 1% may be purchased by the Company at any time for \$1 million.

The final agreement to acquire 8 claim units was through an option agreement pursuant to which the Company will issue 750,000 common shares (325,000 issued), pay \$65,000 (\$25,000 paid) and incur work expenditures of \$200,000 over three years (in process). Upon fulfilling these requirements, the Company will have earned a

100% interest subject to a 2% NSR in favour of the vendor of which 1% may be purchased by the Company at any time for \$1 million.

During the period ended March 31, 2024, the Company received an Ontario Junior Exploration Assistance grant from the Government of Ontario in the amount \$31,277 for exploration work conducted on the Shabaqua project in 2023. The grant was recorde as a recovery of deferred exploration and evaluation expenditures associated with the Shabaqua project in the current period.

e. Other Properties

Other Properties consists of several early-stage projects that the Company is evaluating for exploration potential. Included in Other Properties are certain projects that are subject to agreements that are more fully described below.

Iron Horse

Yukon

The Yukon property consists of 148 staked claims in two separate claim blocks in the Dawson Range gold district. The claim blocks are located in the Matson Creek area (Squid East and West properties). The Company owns a 100% interest in all claim blocks.

During the 2018 fiscal year, the Company optioned the property to Manning Ventures Inc. ("Manning"). Under the terms of the agreement, which was amended during the year ended December 31, 2020, Manning has the option to acquire a 75% interest in the property by making cash payments to the Company of \$55,000 (\$35,000 received with remaining \$20,000 due on or before December 31, 2021), issue to the Company a total of 800,000 Manning common shares (600,000 received with remaining 200,000 due on or before December 31, 2021) and incur work expenditures of \$1,050,000 (as amended) over four years (\$50,000 by December 31, 2021). Manning is the operator during the option period. Manning terminated the option agreement and returned the property to the Company in the 2021 fiscal year.

During the year ended December 31, 2022, the Company optioned the property to Golden Sky Minerals Corp. ("Golden Sky"). The Rights Plan also provides the board of directors of the Company with additional time to consider any take-over bid and, if applicable, to explore alternative transactions in order to maximize shareholder value.

Pursuant to the Rights Plan, any bid that meets certain criteria intended to protect the interests of all shareholders are deemed to be "Permitted Bids". A Permitted Bid must be made by way of a take-over bid circular prepared in compliance with applicable securities laws and, in addition to certain other conditions, must remain open for 60 days. In the event a take-over bid does not meet the Permitted Bid requirements of the Rights Plan, the rights issued under the plan will entitle shareholders, other than any shareholder or shareholders involved in the take-over bid, to purchase additional common shares of the Company at a significant discount to the market price of the common shares at that time.
